Corrigendum

1. Paragraph 35

For average of 16,967 military personnel *read* average of 16,961 military personnel

2. Paragraph 41

The paragraph *should read*

The unspent balance was attributable primarily to the recording of salaries of international temporary staff under the budget class for international staff, which was offset in part by additional requirements for common staff costs resulting from the lower actual vacancy rate of 15.4 per cent for international temporary positions compared with the budgeted rate of 25 per cent.
